Regenerative Agriculture Conference
Kenya

Regenerative Agriculture For Food Systems Transformation;
Combating Desertification and Drought in Kenya

13th - 14th June 2024
Nairobi-Kenya
The Food and Land Use Coalition (FOLU)

FOLU is a global community of change-makers working to accelerate the transformation of food and land use systems. We embrace a diversity of opinions and approaches, support disruptive thinking, and forge consensus through an evidence-based approach. We empower farmers, policymakers, businesses, investors, and civil society to unlock collective action at scale.

### Our mission
- FOLU’s mission is to galvanize diverse leadership, expertise, and solutions for rapid and transformative change in food and land use systems.

### We identify
- Ten Critical Transitions to transform food & land use
- Associated business opportunity worth $4.5 trillion a year
- An economic prize to humanity of $5.7 trillion by 2030 with a return on investment of 15:1

### We are global partners
- A self-governed coalition of diverse institutions
- With an expansive & influential network
- Reaching across global & national levels
- Delivering a robust evidence base for action
FOLU’s 10 critical transitions
About the Conference

The 2\textsuperscript{nd} Regenerative Agriculture Conference in Kenya will provide a platform for sharing knowledge, experiences, and best practices in promoting regenerative agriculture for Food System Transformation and to combat drought and desertification for sustainable development in Kenya.

The conference will be held on June 13th and 14th, 2024 in Nairobi-Kenya in the run-up to the World Day to Combat Desertification and Drought on June 17\textsuperscript{th} 2024.
Conference structure

The conference will bring together stakeholders in Kenya in the areas of food and land use systems – agriculture, SMEs, policy, water, resilience to climate change, management of natural resources, sustainable consumption and healthy diets; among others.

The conference will consist of keynote speeches, plenary presentations, panel sessions, covering a range of topics related to regenerative agriculture, including:

- Regenerative agriculture practices for Food System Transformation in Kenya
- Soil health and biodiversity conservation in Kenya
- Climate change and resilience in Kenya
- Youth employment and entrepreneurship opportunities in regenerative agriculture for sustainable development in Kenya
- Cost-benefit analysis and drivers for the adoption of regenerative agriculture practices in Kenya
