1. **Background**
   a. **About AGRA**
   AGRA is an African-led organization focused on putting farmers at the center of our continent’s growing economy. AGRA advances uniquely African solutions to sustainably raise farmers’ productivity and connect them to a growing marketplace. Together with its partners—including researchers, donors, African governments, the private sector, and civil society—AGRA seeks to create an environment where Africa sustainably feeds itself.

   b. **Context**
   Agriculture plays a very key role in SSA, contributing to over 20% to GDP in most countries and employing over 70% of the population in spite of its low productivity and low incomes. While there has been significant improvement in Governments commitment to the sector, there is need to rally all key stakeholders around a common vision of eradicating food insecurity by 2030, a target that calls for concerted efforts, alliances, and narratives across the Fourth Estate.

   Through our AGRA 2023-2027 Corporate Strategy, AGRA sets out to catalyze the growth of sustainable food systems across Africa by influencing and leveraging partners to build a robust enabling environment where the private sector thrives, and smallholders are empowered to produce sufficient, healthy food.

   As a convener of actors in the food systems sector, AGRA is seeking contract experienced, knowledgeable and well networked communicators or journalists with capacity to produce multi-media content specifically for the agricultural development sector. They will most likely be highly networked professionals with interest and experience in the public sector and be excited about contributing to the development of relevant sector intelligence, insights, stories, and documentaries aligned to AGRA’s country change narratives and business line focused. The agriculture sector is a critical sector of discussion in relevant fora (public, private and academia) hence to need to support Africa’s agenda to building resilient food systems by 2030.
